A FALSE CHARGE

Preferred Against a Decent Man—He Flees to the States.

LONDON, March 13.—Some months ago S. S. Naylor, a prominent member of the Bradford corporation, was arrested on a charge of assault preferred by his servant, a girl named Mary Ellen Bond. The charge so preyed upon his mind that he left the city and fled to the United States, where he is now supposed to be. A few days ago the girl confessed that the charge was false and that she had been put up to the crime by some enemies of the missing man. Naylor's exact whereabouts in America are unknown.

LATEST FROM THE CAPITAL.

WHY THE BUDGET IS DELAYED

Experimental Farm Reports—Mr. Davin and Immigration—Assistance to G. T. R.

Fifty Two Applications for Railway Subsidies—Fisheries Complications—Orange Bill.

OTTAWA, March 14.—The budget which was to have come down this week and was postponed until next week may after all be held over for still another week. A new cause for the delay has been suggested. It is that the government don't want to meddle with the duties until it learns what the Americans are going to do about their tariff. There is a suspicion that if anything having an offensive appearance is proposed in the shape of increased duty retaliation will follow.

A REMARKABLE FACT?

The remarkable fact was pointed out to-day that although the C. P. R. has been running eight years, and that there is not a railway in the world but meets with an accident some time or other, that during the period named not a single person has been killed in an accident on the great Canadian road.

BIG HEAP OF REPORTS.

One hundred thousand experimental farm reports have been ordered published for distribution.

MR. DAVIN AND IMMIGRATION.

Mr. Davin proposes to invite the House to consider this resolution, that a broad general scheme for furthering immigration to Canada, and especially to Manitoba and the Northwest is urgently demanded.

THE ORANGE BILL.

The Orange bill, which was to come up in the senate yesterday, was not reached, and it is understood that any further discussion and vote will not take place until Monday.

FISHERIES COMPLICATIONS.

It is reported that Hon. C. H. Tupper will return from Washington immediately to consult with his colleagues in regard to the fisheries dispute, complications having arisen.

FIFTY-TWO APPLICATIONS.

Fifty two applications for a railway subsidy have so far been received this session.

EVIDENTLY INSPIRED.

The Montreal Gazette, evidently inspired, editorially advocates a subsidy to the Grand Trunk of two millions to build the line to Moncton via Riviere du Loup and Temiscouata railway.

A SILLY PROTEST.

A delegation of woodenware manufacturers interviewed Sir John Thompson to-day to protest against woodware being made in government penitentiaries.

ALONZO'S HOSPITALITY.

Alonzo Wright, M.P., better known as King of the Gatineau, invited twenty members of parliament to-day to his lovely residence up the Gatineau to eat wild turkey, thirty-eight pounds weight, given him by Mr. Lister. Among those present were Daly, Ross and La Riviere. The twenty members were Canadian hour, and on being all weighed they averaged 203 pounds each. They were royally entertained and spent a good time.

BYKERT'S RESIGNATION.

It is reported on apparently good authority that the government has received, or is expecting to receive the resignation of Bykert, but in case the member for Lincoln does not tender the same a ministerial caucus is called to consider the matter, which has caused the government more trouble than they at first anticipated.

IMMIGRATION TO MANITOBA.

The Manitoba members held a caucus this morning when it was decided to support Mr. Davin in his effort to obtain an appropriation of $25,000 for the purpose of encouraging immigration to the territories. They also decided to represent the necessity of increased immigration to Manitoba and to ask that a similar sum be placed in the estimates for that purpose.

THE BREMNER FOR COMMITTEE.

The select committee on Bremner's farm met this morning and decided to call Bremner, Captelle, his clerk, and Mr. Warden, of Battleford. Mr. Lister specified his charges and it was decided to send copies of the same to General Middleton and to Hayter Reed and to request them to attend in person or by proxy. The committee will meet again Wednesday.

THE BYKERT SCANDAL.

At the Conservative caucus this morning it is understood that the Bykert timber limit scandal was considered and it decided to refer the whole matter to the privilege and elections committee to deal with. A report is in circulation that Bykert intends to resign his seat in parliament.

VOTE OF CENSURE.

In the House this afternoon Mr. Laurier moved a direct vote of censure on the government for delay in bringing down the measure mentioned in the speech from the throne.

COMING HOME.

Scarth and Ham leave for home to-night.

RIDEAU HALL EXPENDITURE.

An interesting statement of expenditure upon Rideau hall, from confederation to the present time, has been prepared. It shows a total expenditure of $911,162.87, divided by regimes as follows:

Lord Dufferin	$117,427 87
Lord Lorne	235,801 21
Lord Lansdowne	170,139 87
Lord Stanley (two years)	78,836 41

The first item includes $82,000, the cost of purchase of Rideau hall. Until 1874 there was no allowance for fuel and light. Then an annual grant of $5,000 was made for fuel, with an additional allowance, once exceeding $5 000, for gas. In 1880 this was changed and a lump sum of $8,000 allowed for both fuel and gas.

NOTES.

Senator Boulton is moving in the direction of having the government accept the Canadians in Dakota who are suffering.

Mr. McNeil is likely to be chairman of the committee to investigate the charges against General Middleton, S. L. Bolton and Hayter Reed.

DASTARDLY OUTRAGE.

A Young Country Girl Foully Outraged by Three Villians.

TORONTO, March 14.—The outrage on the seventeen year-old girl, Hattie MacDonald, who comes from Paisley, Ont., appears to have been worse than was at first imagined. She was kept in a house in a lonely part of the city from ten at night until the next afternoon by three men who outraged her there. There were eight or nine in the room at different times when the criminal assaults were made. The girl was shamefully used and badly injured. So far only three men are under arrest. The others are known, however. Only three took part in the outrage. It is not improbable that these may be sent to the gallows or sentenced to the penitentiary for life.

THE ACT OF BRUTES.

A Young Owen Sound Lady Outraged in Toronto.

TORONTO, March 14.—John Burrows, Charles Pige and John Haliburton, the two former laborers and the latter a carpenter, were arrested for decoying an Owen Sound young lady into a club room on the pretence of showing her to a boarding-house, and keeping her there all night and repeatedly outraging her.

CATTLE FOR IRELAND.

An Effort Being Made to Procure a Large Shipment.

TORONTO, March 14.—An effort is being made to procure a large shipment of Canadian cattle to Ireland this season.

THE MAIL AND THE JESUITS.

The Latter File an Answer to the Mail's Objections.

MONTREAL, March 14.—The Jesuit fathers have filed their objections to the exception à la forme taken by the Mail. They contend that the right of the Society of Jesus in acting as a corporate body can only be attacked by Her Majesty's attorney-general, because this belongs to the privileges of the crown, and the local legislature is supreme in making appreciation of the right to incorporation; that the Quebec act incorporated them within the province; that their teachings are those of the Catholic church as a whole, and that the allegation that their teaching is against the public good is totally unfounded.

MR. HEPWORTH'S LETTER.

TORONTO "MAIL" CRITICIZES

The Methods of the Romish Church to Deceive the People.

TORONTO, March 14.—The Mail says: "The facts narrated by J. P. Hepworth, of St. Laurent, Manitoba, whose letter Attorney-General Martin read during his speech in the legislature, will not surprise those who are familiar with the church's methods of procedure in such matters. They show, however, what unfair means have been taken to arouse the residents in the French districts in Manitoba in hostility toward the government's wise school policy. That policy has nevertheless the warm support of a vast majority of the people of the province; nineteen twentieths, Mr. Martin estimates it, including fifty per cent. of the Roman Catholic population. That it will prevail, and that it will prove of incalculable benefit to Manitoba no unprejudiced person can for a moment doubt.

IT LOOKS LIKE A GO.

SIR JOHN FAVORS THE H. B. R.

In a Speech to a Deputation—The Government Will Assist the Road.

OTTAWA, March 14.—Several railway delegations interviewed the Premier yesterday and to-day. Toronto seems very anxious for a subsidy to the Nipissing and James' Bay railway. Sir John made a most important speech, which foreshadows what the government intends to do in regard to the Hudson's Bay railway. He said the Nipissing road would doubtless run through an important section of country; but he could not disguise the fact that a more important portion of Canada wanted railway communication, because there was a demand from all the provinces for more railway accommodation, and if the authorities had not taken the matter in hand the pressure on the provincial governments would have been so strong as to compel them to do something. He did not fail to recognize that while the deputation only asked for a subsidy for 90 miles yet that was but a part of a proposed line of 300 miles long, and unless the line was completed to James Bay it would be nothing more than a local road. He further said that so fewer than six lines were projected to James Bay and their claims would have to be considered as well as this company's. It was well known that a round robin had been signed by a majority of the members of the House who asked the government to subsidize the original Hudson's Bay scheme on the ground that it would be of vast benefit to the whole Northwest and would carry the surplus products of Canada and the Northwestern States to England by the shortest route. The government would have to consider that matter. The Hudson's Bay road was the shortest route from England to the Northwest and likely to be of great service. He held out little hope of a subsidy to the James Bay road this year. The impression left upon the auditors was that the Hudson's Bay guarantee would be given this session.

EVERYTHING SATISFACTORY.

Mr. Hugh Sutherland has just returned from New York. While there he had a satisfactory interview with a representative sent out by the English capitalists who will supply the money to go on with the building of the Hudson's Bay railway. This representative will be in Ottawa next week for the purpose of interviewing him in regard to the matter.

THE REXWELL MURDER.

Burchell's Counsel Will Endeavor to Prove an Alibi.

TORONTO, March 14.—It is understood that Burchell's counsel at the trial will try to prove an alibi, on the ground that he could not possibly have gone fifteen miles from Princeton station to the place where Rexwell's body was found, committed the murder, and have returned to the station from eleven in the forenoon to three in the afternoon. During that time, it appears, the murder was committed.

The steamer Germanic, which left Queenstown this afternoon for New York, has among her passengers David Stephenson, father of Mrs. Burchell, the husband of the man accused of the Rexwell murder at Niagara Falls. He is well provided with funds, and, and will spend them liberally in the defence of his daughter and son-in-law.

STARTLING PANAMA NEWS

Guerillas in Drunken Frenzy Pillage the Town and Murder the Inhabitants.

PANAMA, March 14.—A correspondent of Lima, under date of February 12, writes: The antagonism existing between Senores Rosas and Morales Bermudez, two candidates of the Constitutional party for presidential nomination is probably greater now than at the beginning. From Pano news has been received of a collision between Rositas and Bermudistas, resulting in the loss of a number of lives and the pillage of houses by drunken Indians. Dr. Urbina, leader of Rosas' party, was killed after the murder of five members of his family. Guerillas in a drunken fury continued to slaughter the inhabitants and to sack and burn the town for many hours after. Over one hundred lives were sacrificed.

THOSE TERRIBLE FLOODS.

NEW ORLEANS INUNDATED.

Cattle, Horses, Sheep and Other Stock Drowned—Great Loss of Property.

Waters are Still Rising and the People are Greatly Alarmed.

MEMPHIS, Tenn., March 14. — Great anxiety is felt in the levee protected districts. Rain still falls in torrents and the winds drive the waves against the slender threads of the levees, wearing them even thinner. The river at this point is forty miles wide extending to the foothills of Arkansas. St. Frances basin, covering an area of 450 miles is filled. This will cause a rise in the river which has heretofore acted as a vent. The government engineer says that with an additional rise of two inches he would be compelled to abandon the unequal struggle. Cattle, hogs, and sheep have been drowned in large numbers.

The government employees are doing all in their power. Thousands of cattle, horses and sheep have fled to the levees for safety. The levees are now sodden and mushy and yield to the feet of the animals that crowd them. As the people had timely warning no loss of life is apprehended, but millions of dollars worth of property are in danger.

A GLOOMY OUTLOOK.

NEW ORLEANS, March 14.—The outlook is gloomy. The river is half a foot higher than ever before. The waters are now washing over the levees and rain is falling in great quantities. Storekeepers and residents below Canal street were surprised to see the streets begin to flood. They rushed to the levees, expecting to see the crevasses broken, but no breaks occurred. The river is steadily washing over the wharves and embankments. A further rise of three inches will flood the lower stories of all business houses below Canal street and stop business of all kinds. The Sugar Exchange, Hotel Royal, the cathedral and French market are surrounded by water. The mayor called a special meeting of the council last night, and $50,000 were appropriated as an emergency fund. No levee breaks of magnitude are reported, but there will doubtless be many within the next twenty-four hours.

STILL ASTONISHED.

Military People Cannot Get Over the Recent Appointment.

WASHINGTON, March 14.—Army circles have not yet gotten over the astonishment created by the appointment of Lieut.-Col. William Smith, chief paymaster of the Dakotas, to be paymaster-general of the United States army, and are about ready to concede that the President is a man of mystery. The most remarkable feature of the appointment is the appointment is the fact that Col. Smith was not a candidate, but came here solely to help his brother, Col. Rodney Smith, the senior in rank on the army register, and whose chances were considered the very best. Just why the president chose the other brother over the latter cannot explain.

A Paralyzed Husband Witnesses the Burning of His Wife.

PORT HURON, March 14.—Mrs. Carlisle, an aged lady living three miles west of Marysville, while fixing the fire in a wood stove, ignited her clothing in some way. She fainted, and her clothing was burned from her body. The flesh was horribly burned up to her waist, and she died the following day. Her husband was the only other occupant of the house, and was a witness of the whole occurrence, but was not able to help her, as he is paralytic and can move neither hand nor foot. For three hours he was compelled to watch the agony of his wife, until their daughter returned from church. Medical aid was summoned, but it was too late.
